

A black and white photograph showing two construction workers in a large, complex steel framework. One worker is in the foreground, wearing a hard hat and safety harness, looking up at the structure. Another worker is partially visible behind him. The background is filled with the intricate grid of steel beams of the construction site.

We are a Swedish-Polish group
of companies specializing in designing
and producing solutions for the industrial
and construction sectors.

Brands of TLC Group

TLC operates through companies located in:

- + Poland,
- + Sweden,
- + France,
- + Germany.

The TLC Group also includes the following companies:

TLC^{EU} Rental

TLC^{EU} Clipper

TLC^{EU} Ocynkownia

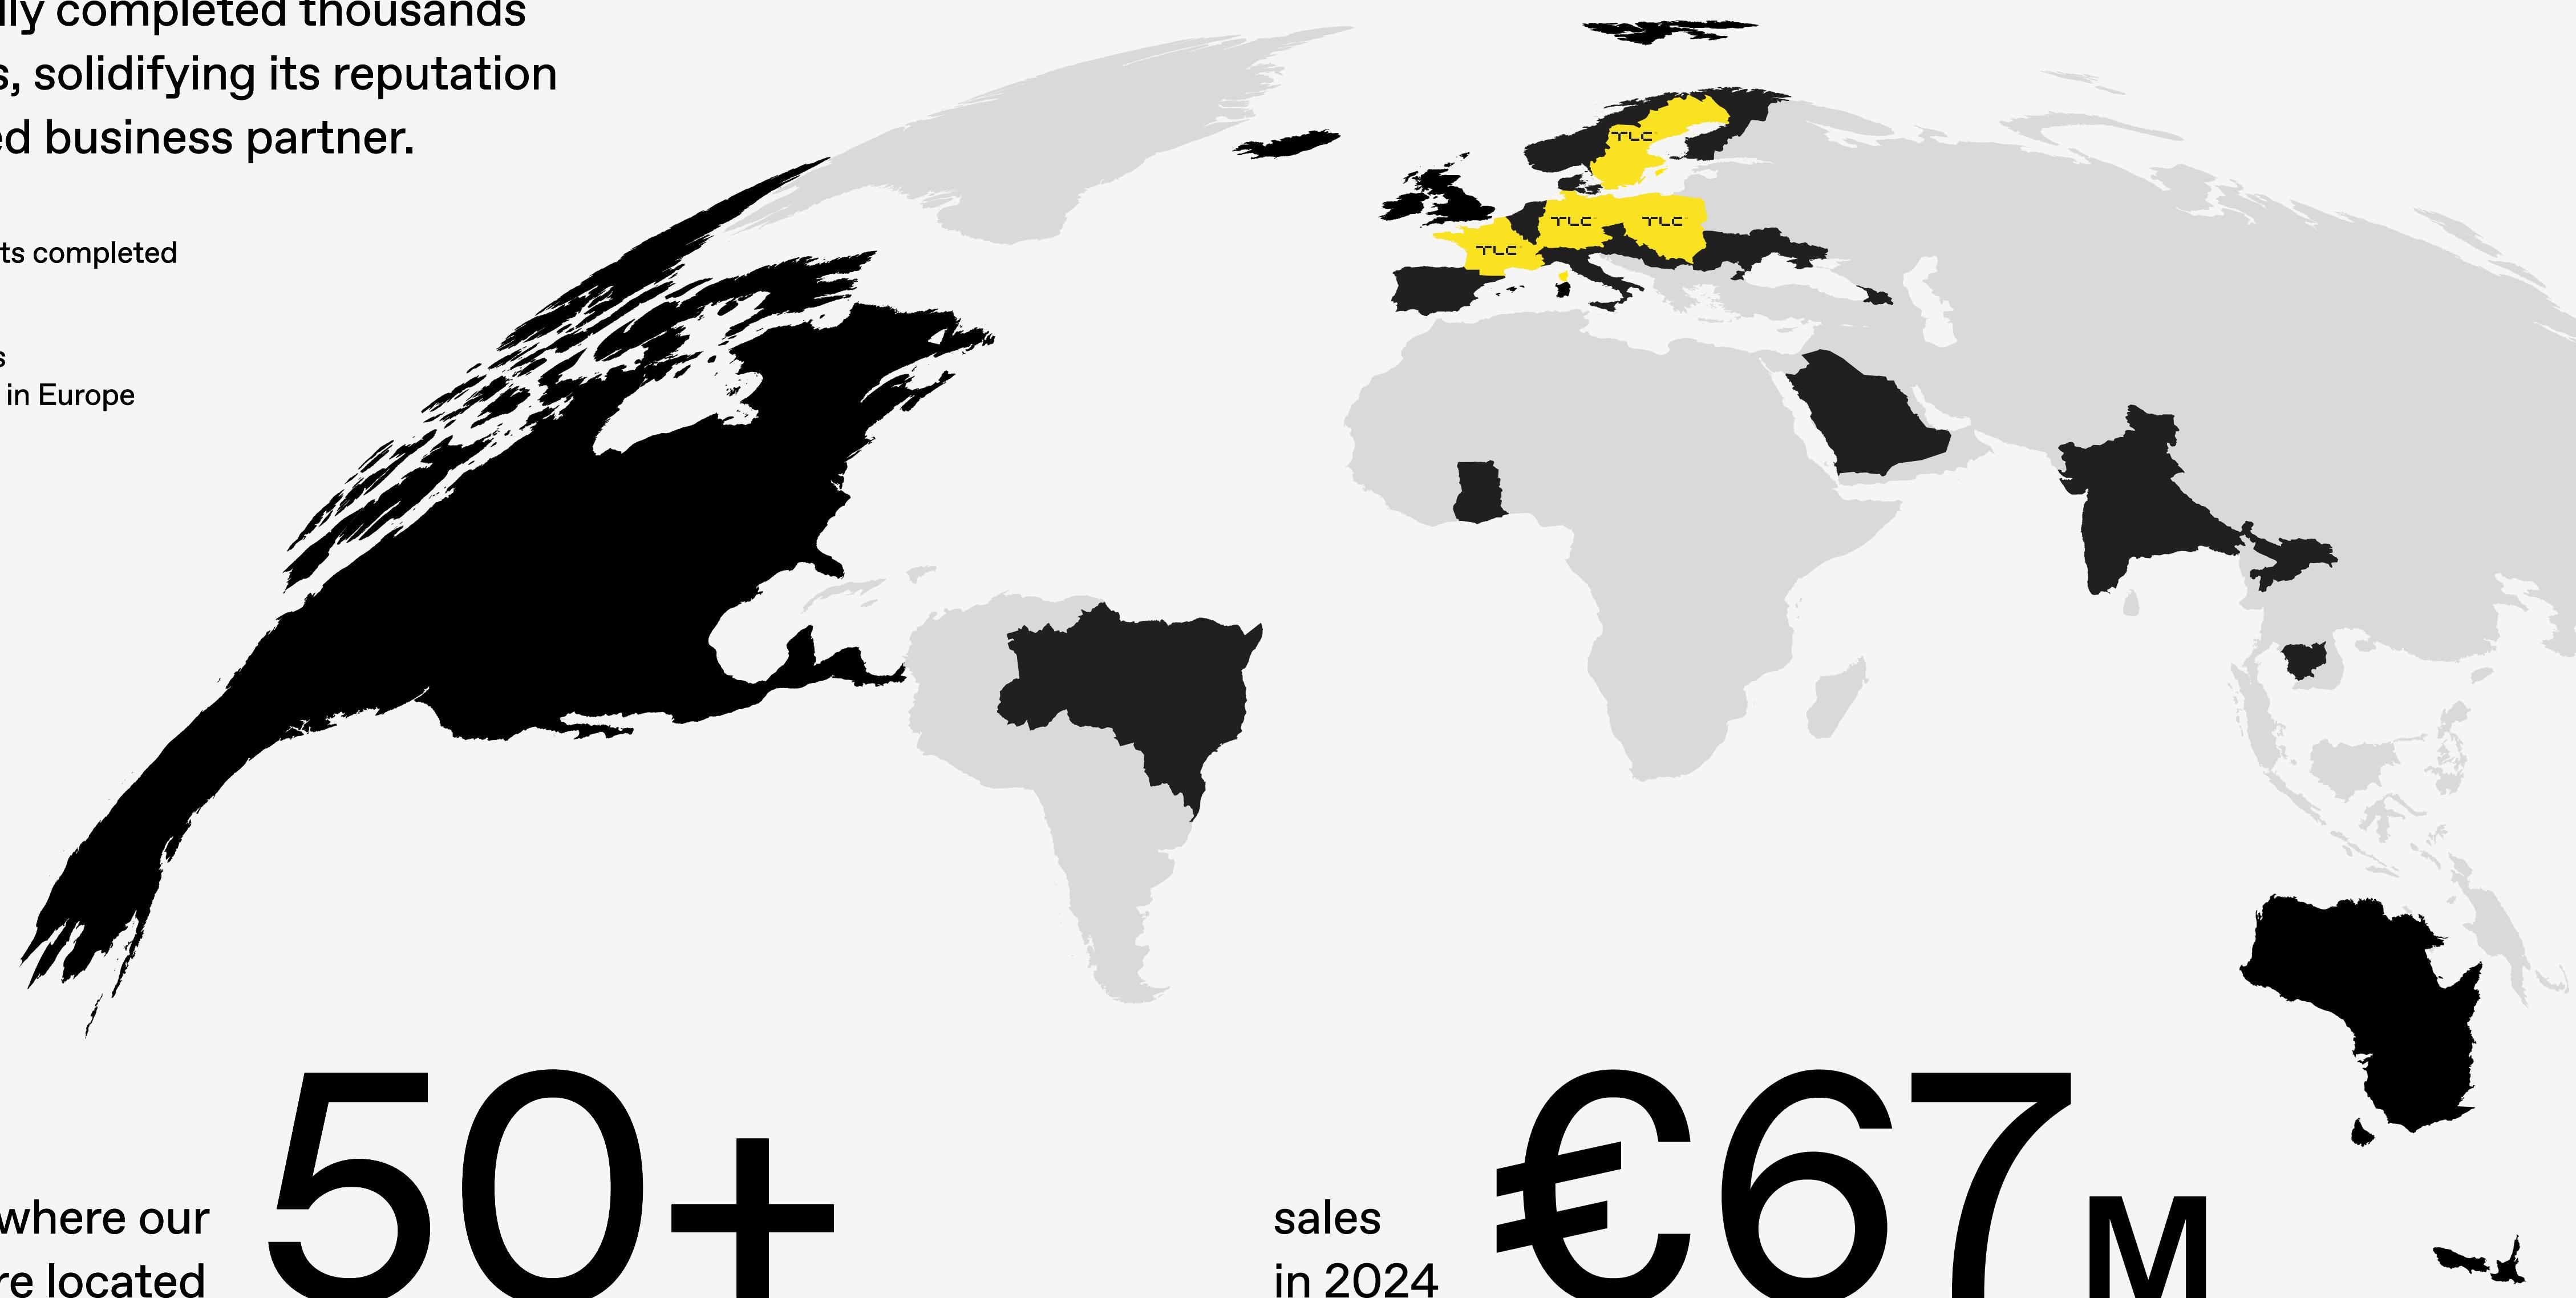

TLC^{EU} **Unit**

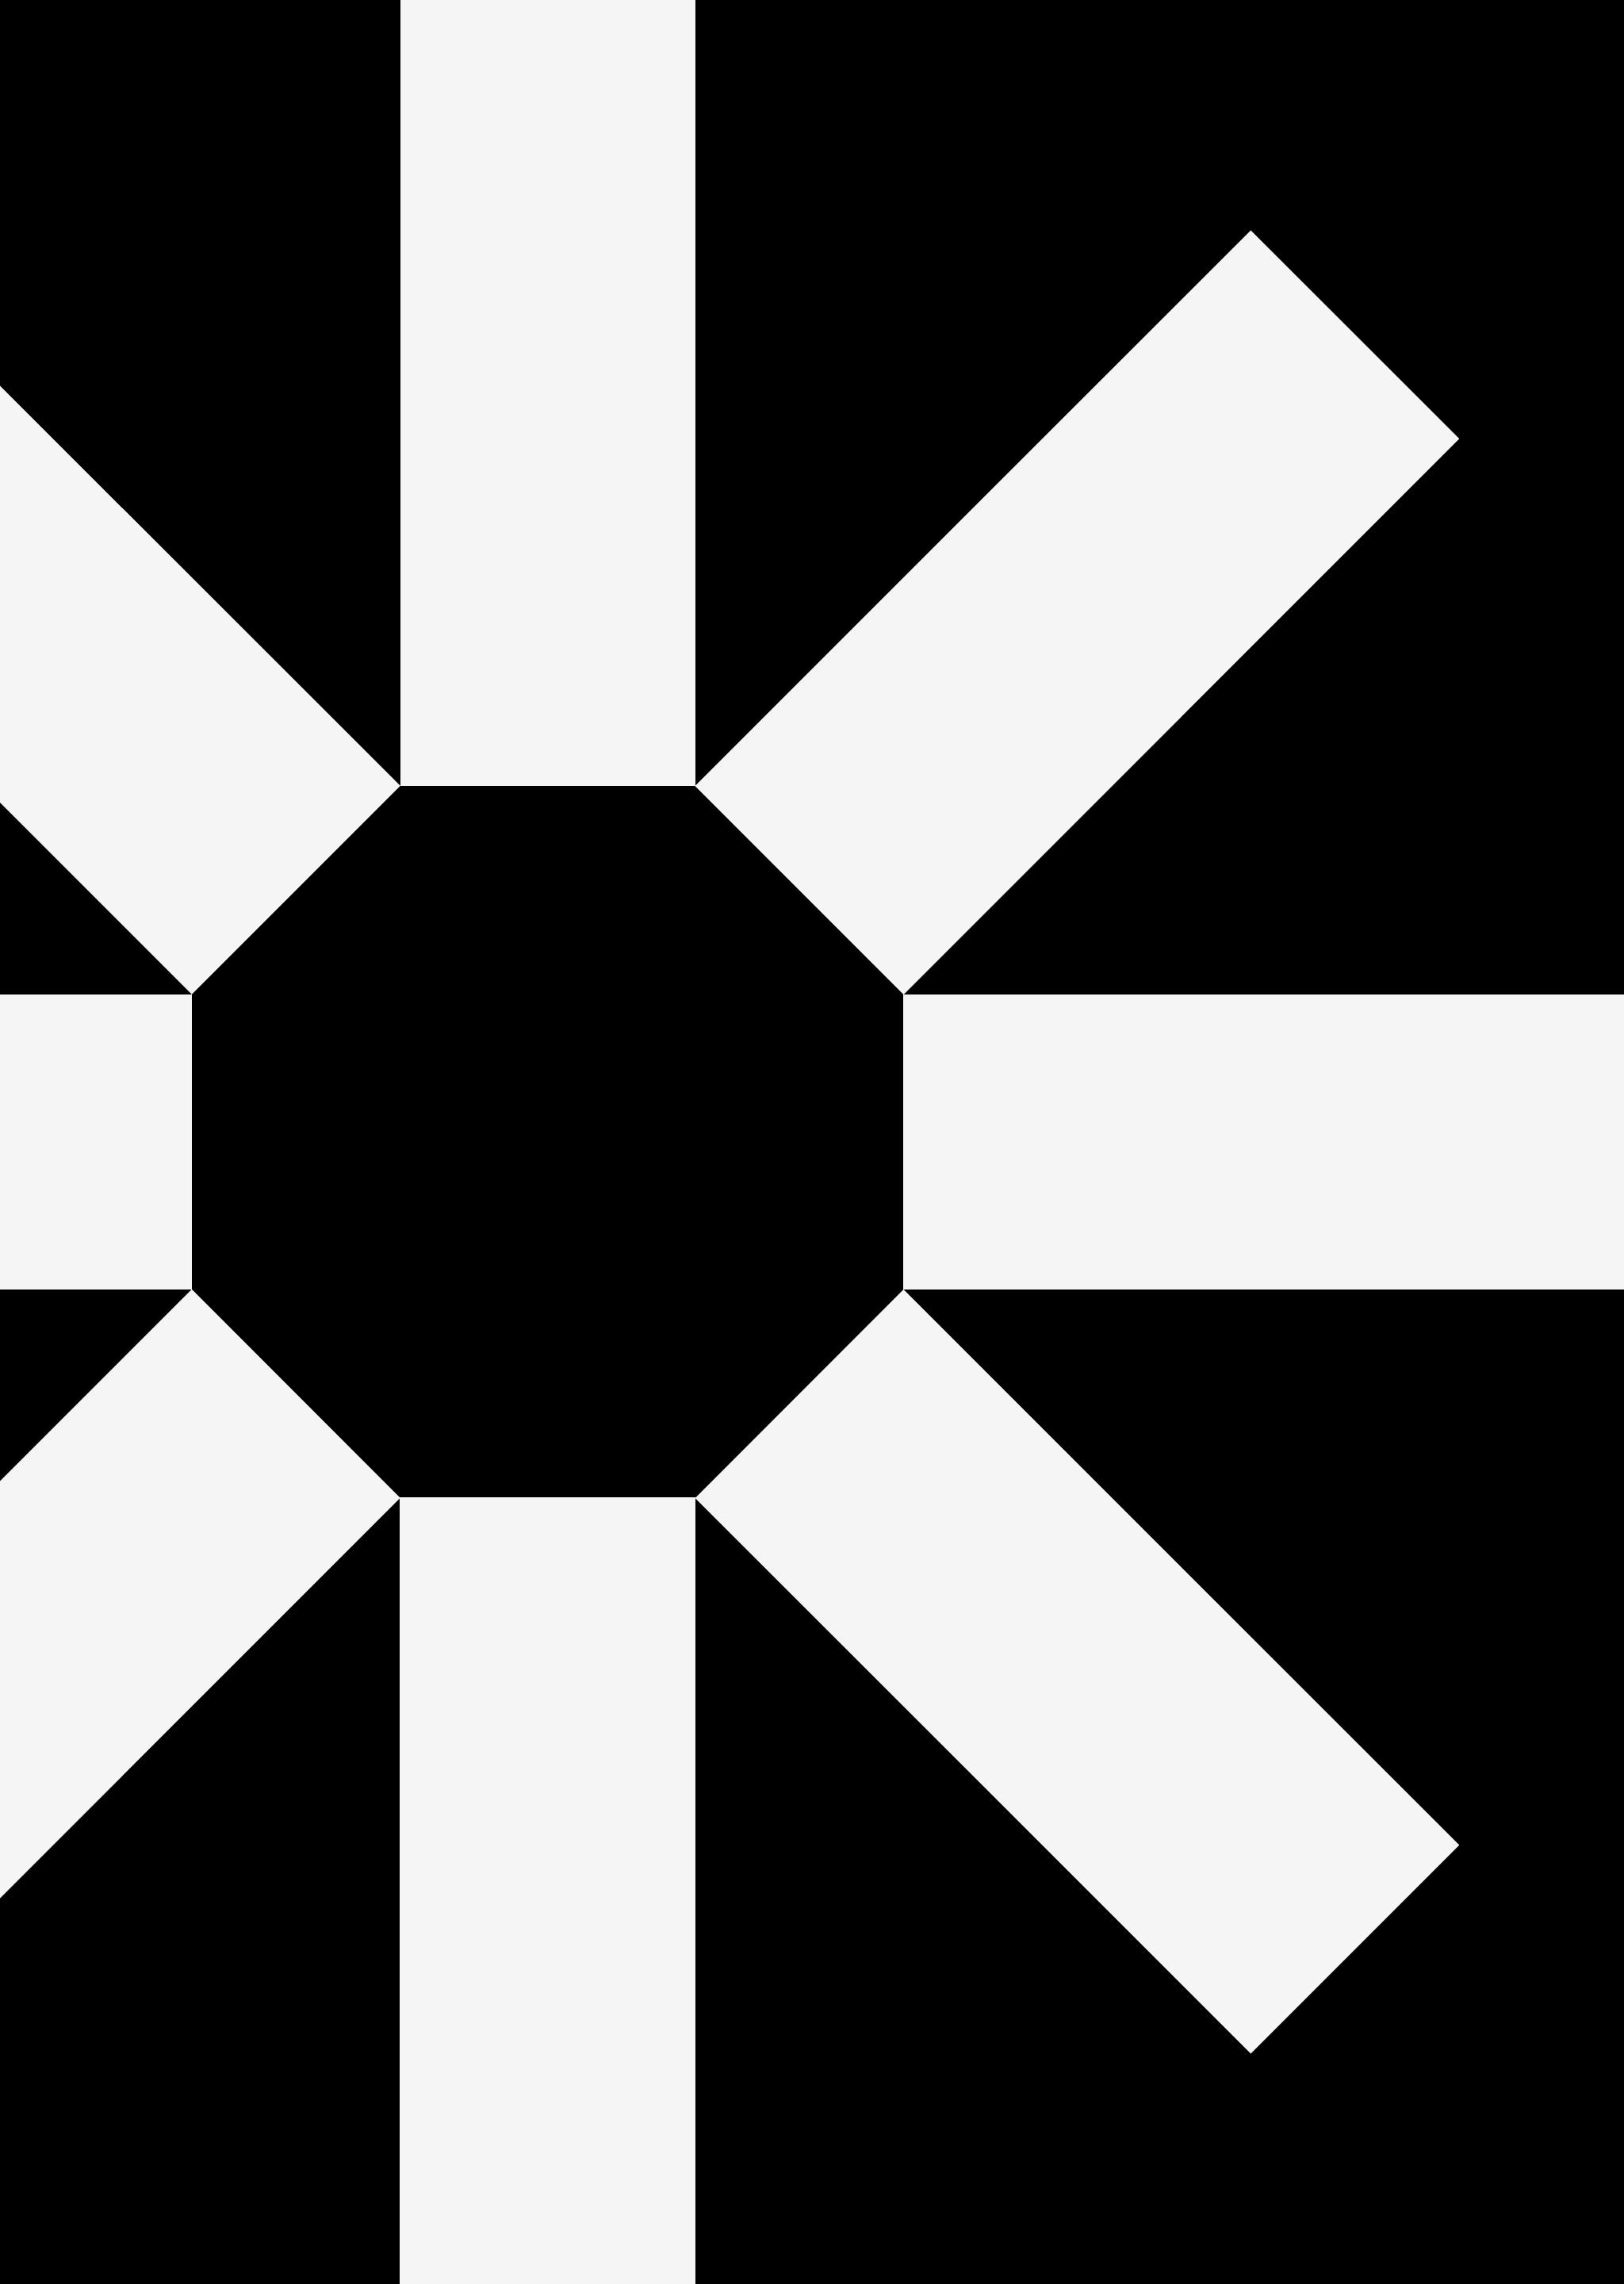

N Nordweld

MR **MebloRent**

With a global presence, TLC has successfully completed thousands of projects, solidifying its reputation as a trusted business partner.

- 1,500 projects completed every year
- 9 companies 22 branches in Europe

Steel stairs, platforms, walkways and catwalks systems

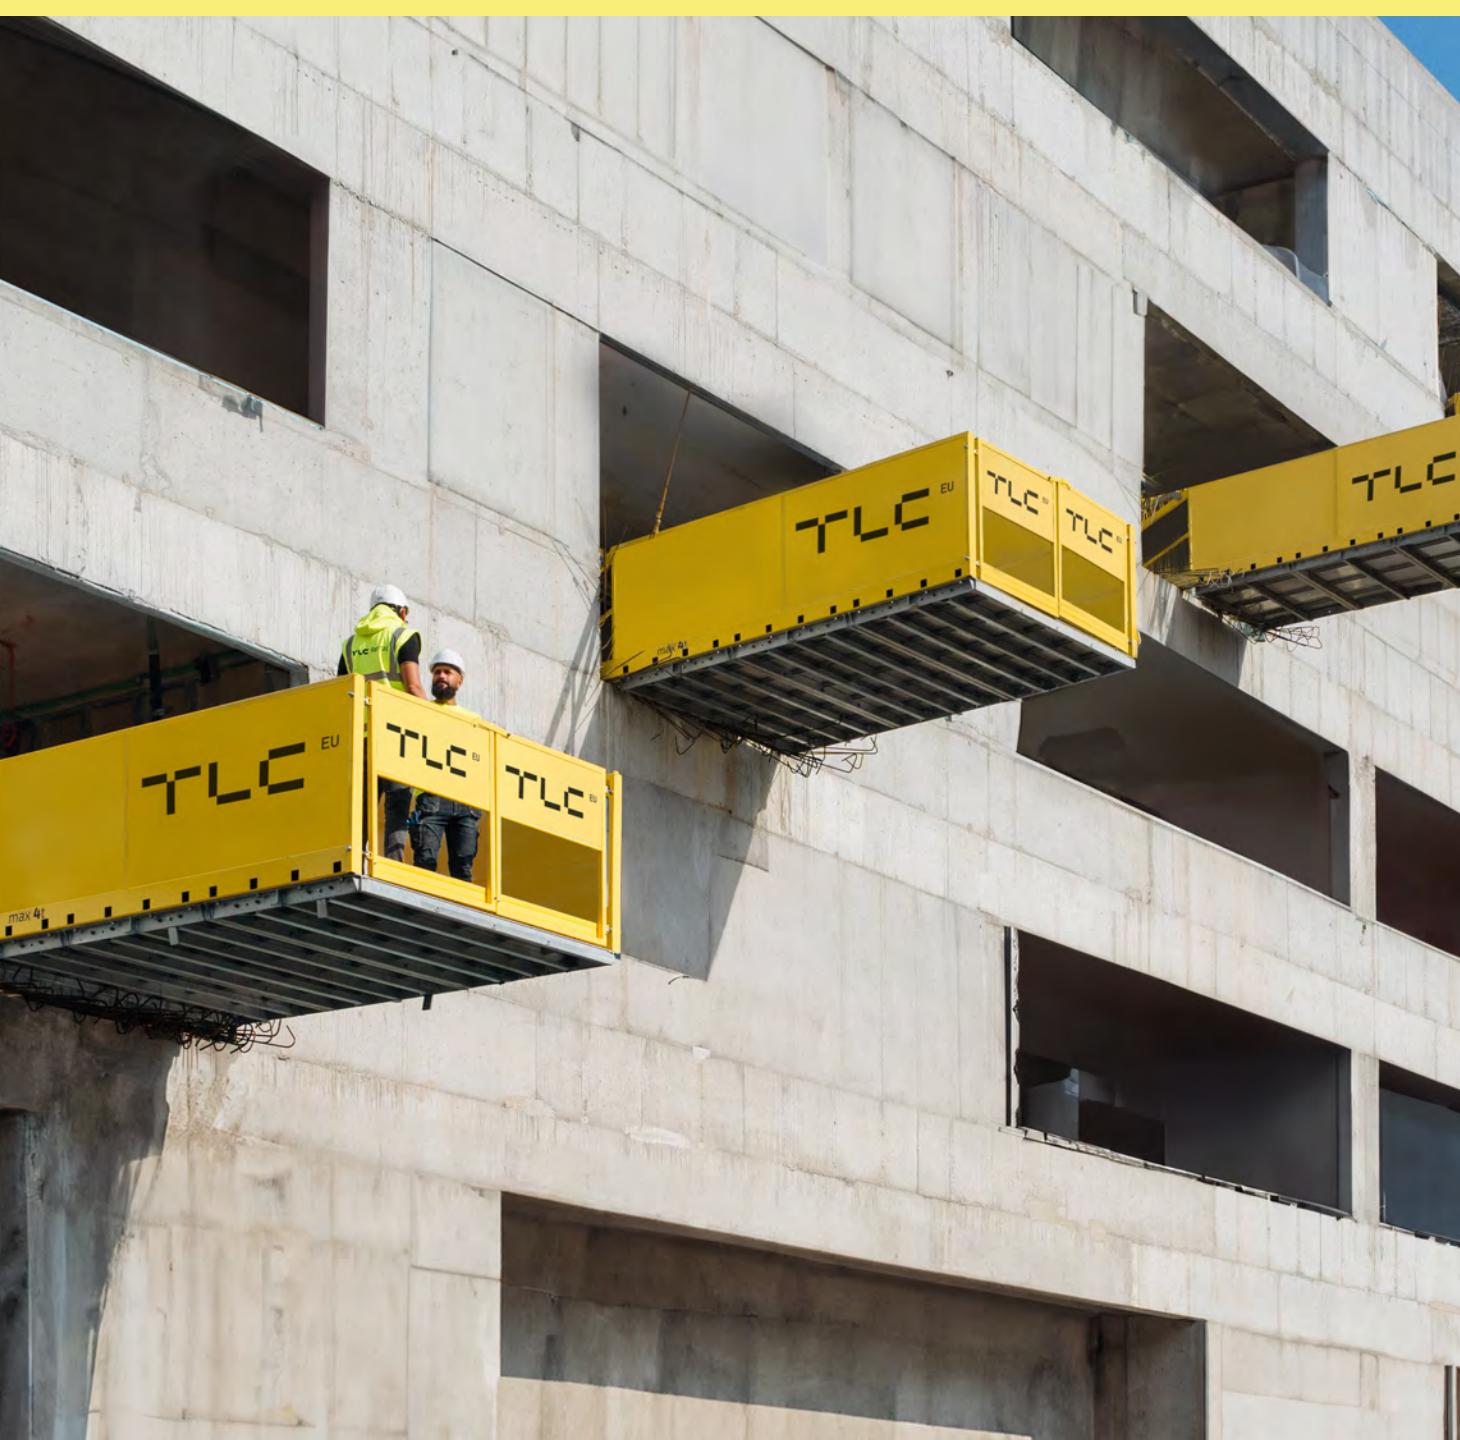

TLC has successfully completed hundreds of projects worldwide across the most demanding industries. With branches in Poland, France, Sweden, and Germany, we are also planning further overseas expansion and the development of our product offerings.

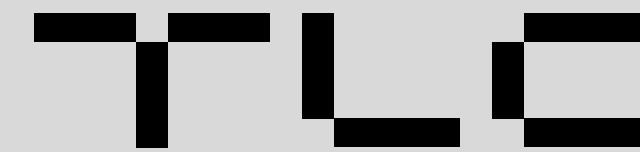

Manufacturer of mobile safety and access systems for construction sites:

- + site security: temporary fences, panels, and crowd control barriers
- + temporary stairs and staircases
- + modular container terraces and stairs
- + crane loading platforms

We are expanding our production facilities, machinery park and automating technological solutions.

EU

STEEL EQUIPMENT
DESIGN, PRODUCTION & RENTAL

We focus on high production standards and innovation in creating new solutions.

At the core of our work is ensuring our solutions are always one step ahead and setting new standards **in the quality and safety of the construction process.**

Manufacturer, TLC Sp. z o.o., holds TÜV SÜD Polska certificate no. 2527 according to EN 1090-1 and PN-EN ISO 3834-2 certificate issued by TÜV SÜD Polska. TLC's Production Plant has been certified with the Integrated Management System of Quality, Environment and OHS (ISO 9001/ ISO 14001/ ISO 45001) issued by Bureau Veritas Certification.

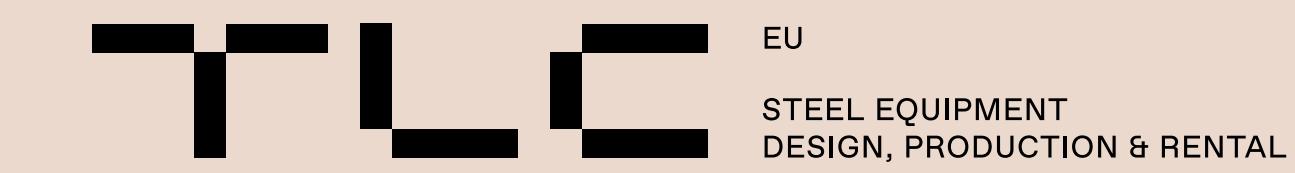

The IPCA audit evaluates production stability, capability, and control. It is recognized as the gold standard and highlights our commitment to excellence and continuous improvement.

80%

Only 2% of companies achieve this, placing us among the elite.

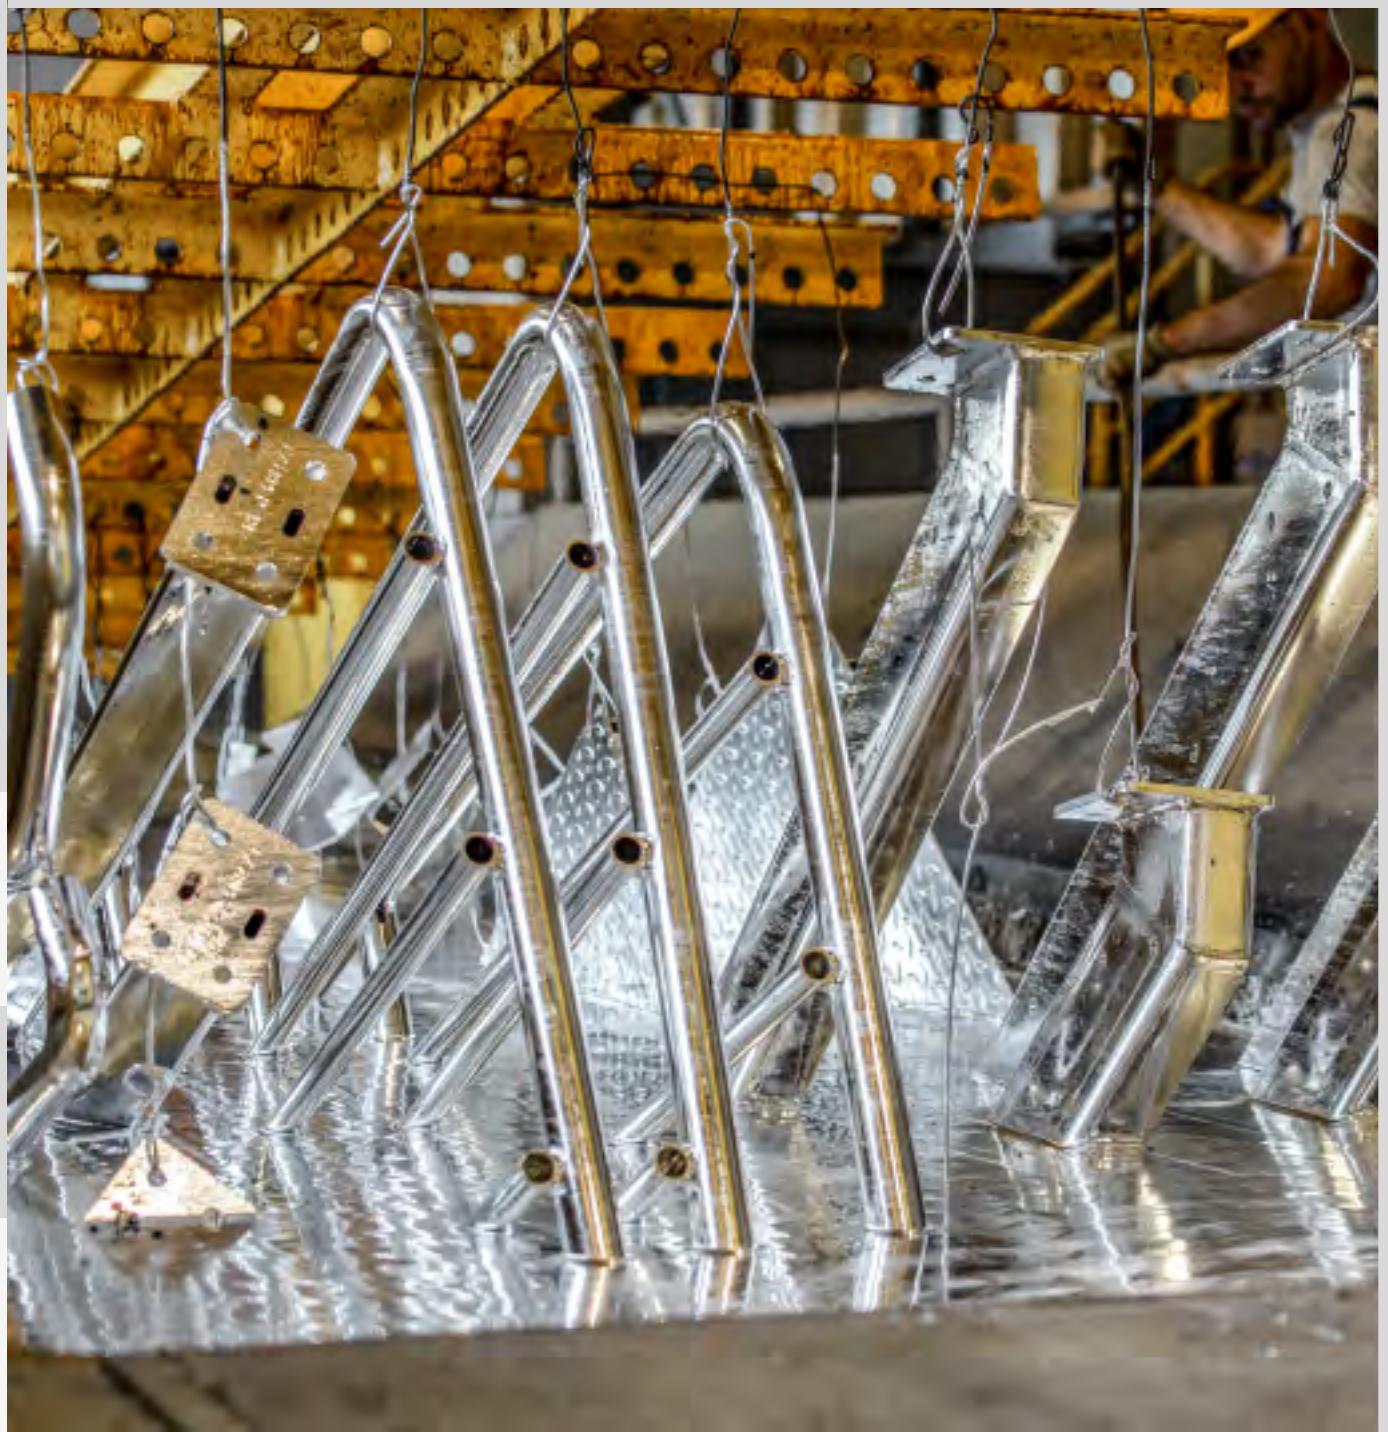

Qualified engineers and specialists

R&D and Project Support Department are dedicated to delivering innovative solutions and expert assistance tailored to our clients' needs.

TL^C EU Ocynkownia

Galvanizing Plant

The galvanizing plant provides a high-quality zinc coating, ensured by a modern technological process and the use of premium-grade materials.

Design and production
of prefabricated, modular
houses and bathrooms

The offer includes two segments:
modular houses and prefabricated bathrooms -
quick-to-assemble residential and functional
buildings, and fully equipped sanitary modules
for residential, hotel, and industrial use.

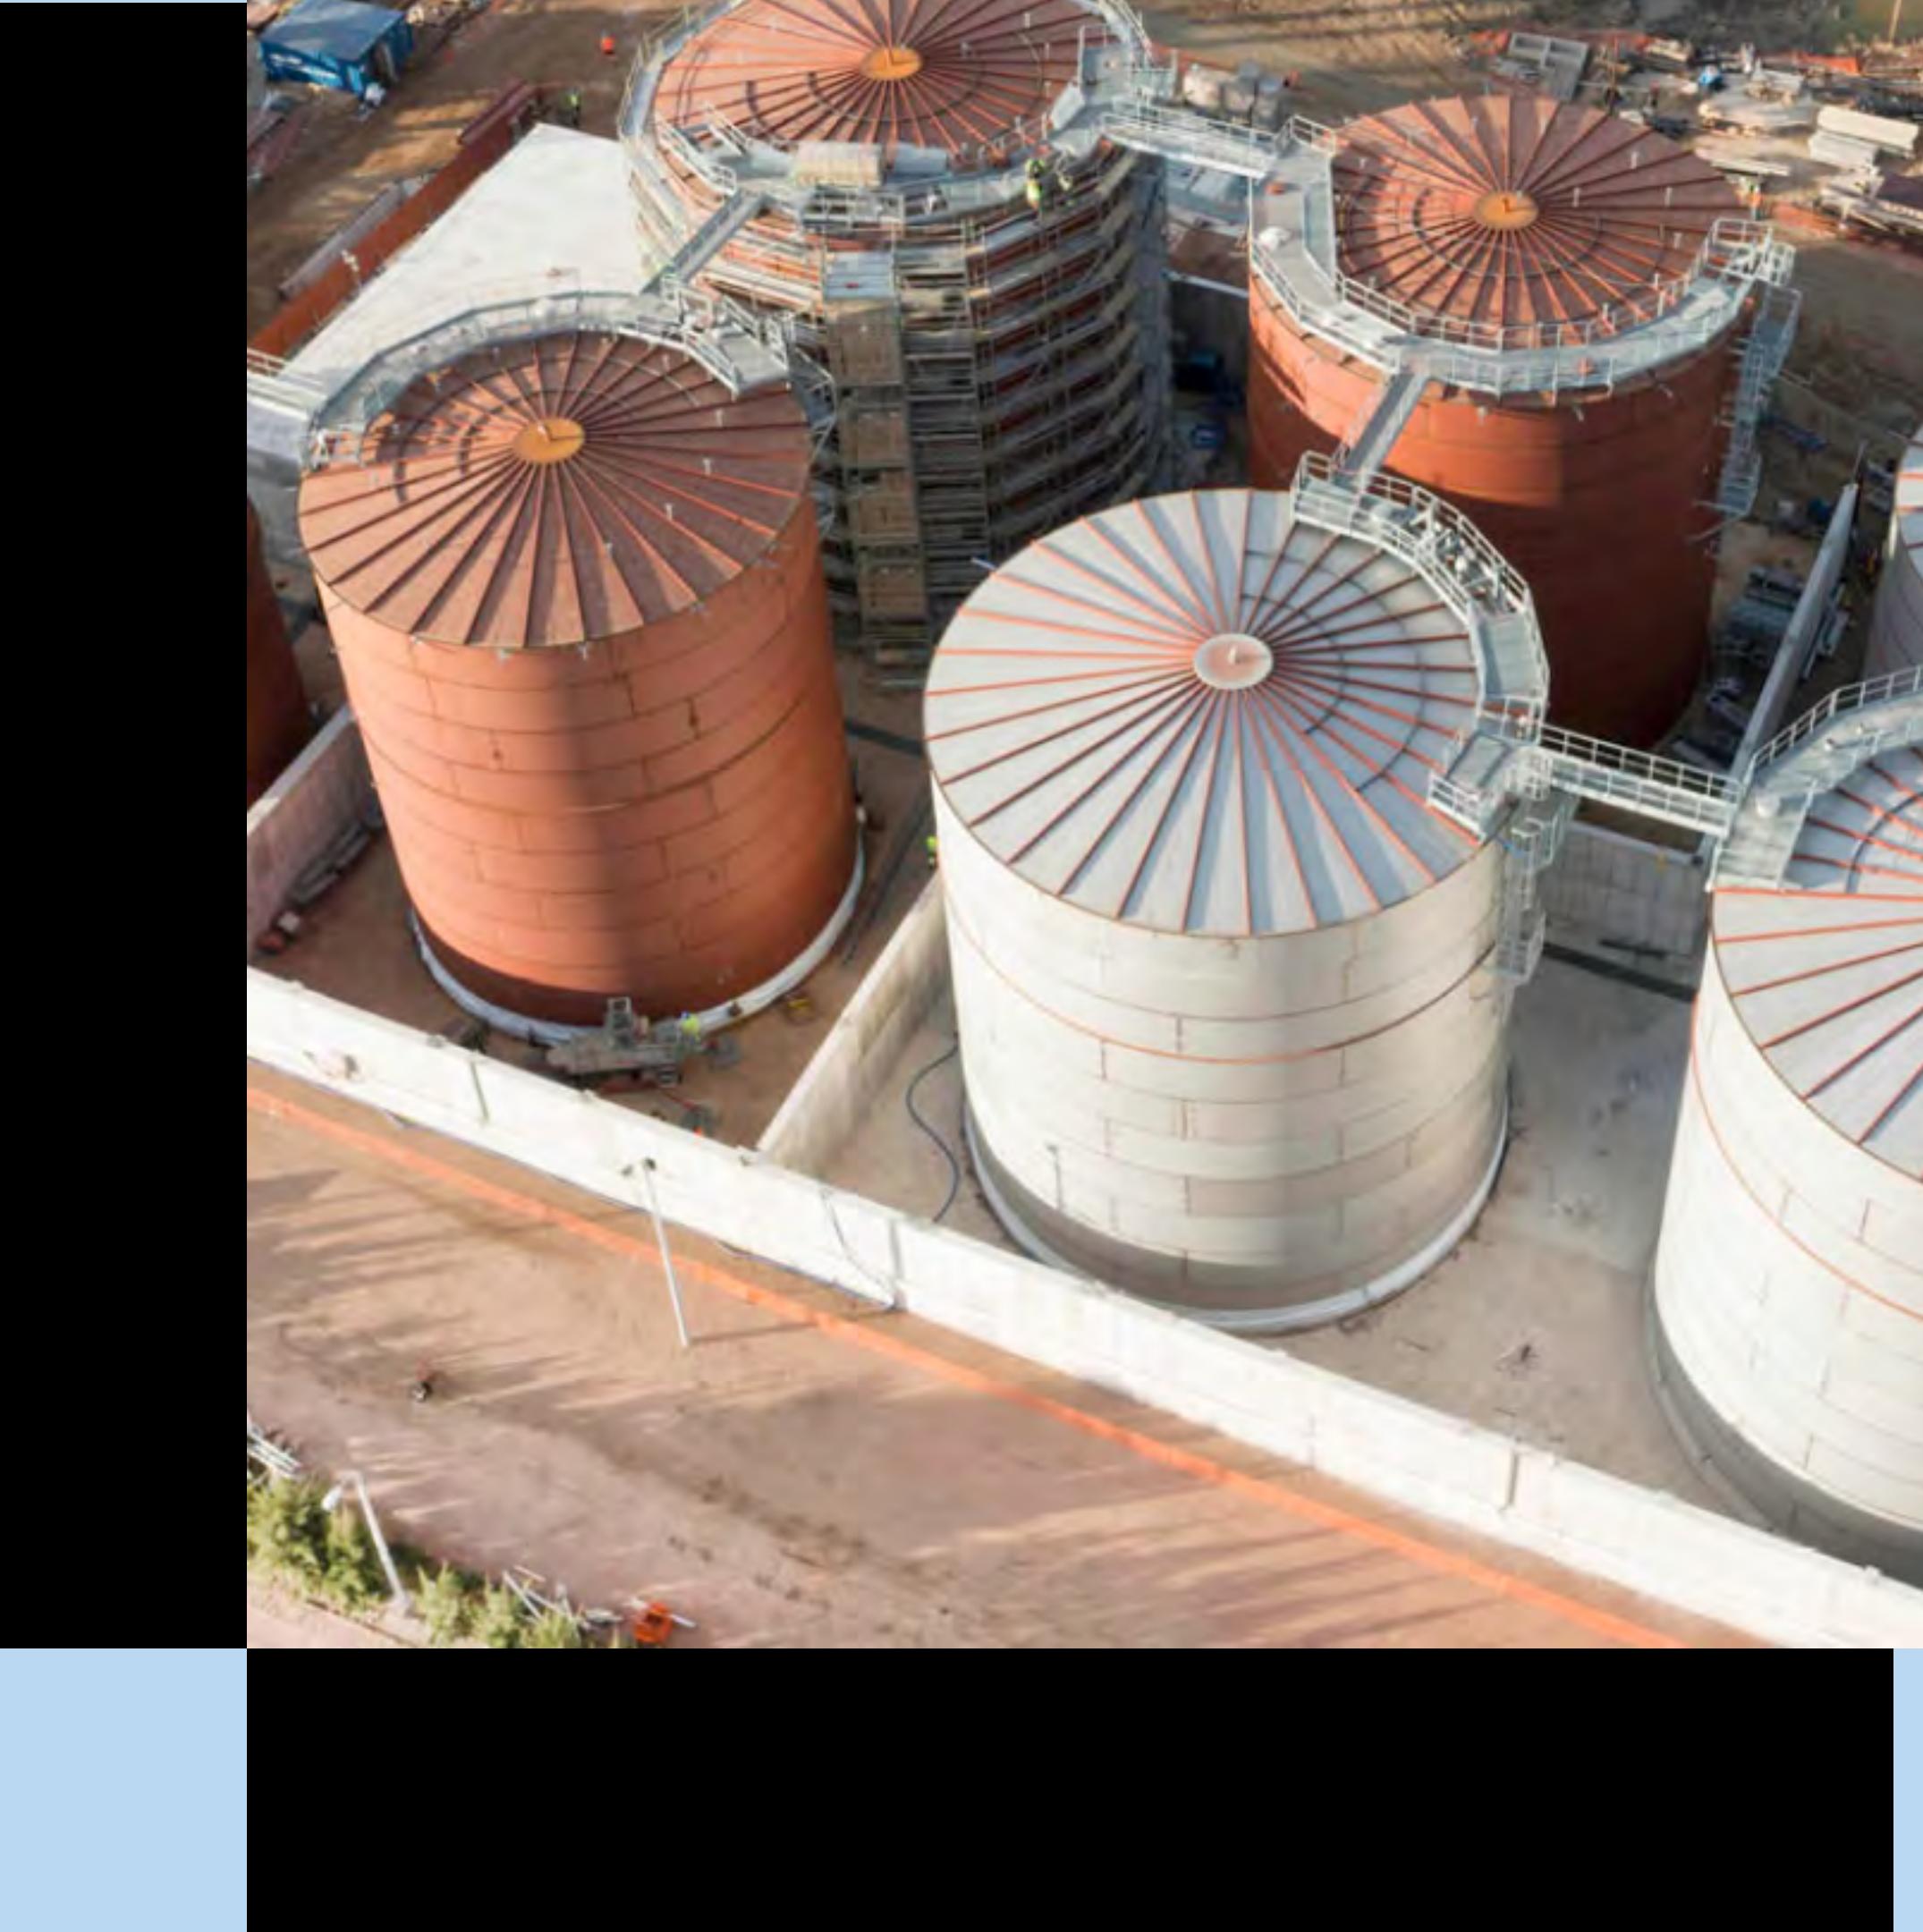

Modern prefabrication technologies reduce
delivery time, optimize costs, and ensure
consistent quality.

Designer and manufacturer of innovative systems for building for on-site construction of welded steel tanks.

The solution offers numerous benefits, such as fewer production hours, improved working conditions, increased safety, and better quality. Innovative technology developed during for 35 years of experience.

Innovative tank building system

Modular systems enable the implementation of projects in the farthest corners of the world and significantly reduce costs and time. All work is performed at ground level, with mechanized welding and fit-up work completed at a single location.

INNOVATIVE TANK
BUILDING SYSTEM

TLC Rental, TLC Clipper and MebloRent brand operating only in Poland constitute a local distribution network and increase the profitability and potential of the entire TLC Group.

Construction equipment network specializing in the rental and sale of temporary fencing, barriers, stairs, edge protection, and crane loading platforms.

A network of portable toilet and sanitary equipment rentals across Poland. The company serves construction companies, public institutions, local governments, event organizers and individual investors.

TLC-CLIPPER.PL

PORTABLE TOILET AND
SANITARY EQUIPMENT RENTAL

A rental network offering equipment for temporary and mobile offices.

It supplies office and social furniture, cloakroom metal cabinets, and sanitary parts.

It offers a wide selection of high-quality furniture and comprehensive services.

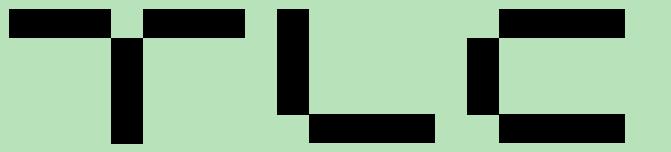

With over 7,000 furniture items in the assortment, 300 projects per year, and nearly 1,000 m² of warehouse space across 5 branches in Poland.

We have been implementing a planned sustainable development policy since 2018.

- Soon, 90% of the energy powering our plants will come from solar energy.
- The car fleet is entirely electric and hybrid cars.
- We minimize the amount of waste and use recycled materials.

We have Environmental Product Declarations (EPDs) for our products. This is a global Type III declaration programme that follows the principles of ISO 14025. An EPD is a standardised document that provides information on the environmental impact of a product.
